

# 2014 COMPSTICK

17" x 20m / 20" x 23m / 23" x 27m CROSSOVER

**NEW**  
FOR 2014

**NEW RIDER CONTROL CENTER**  
LIGHTER. SMOOTHER. SAFER.

## AIR TRAFFIC CONTROLLER w/ GUARDIAN SAFETY

Today's riders need to be at the center of control. Building on 4 consecutive World Championships, the new Compstick with Flight Control and our patented Rider Control Center, is the safest, most comprehensive and intuitive control system available on the market today.

We focused on the performance of three individual zones which work together to provide a world class rider-centric control system. This new approach takes into account 3 specific areas:

1. Flight Control - Above the Bar
2. Compstick - At the Bar
3. Rider Control Center - Below the Bar

All three critical areas have been optimized to work in balanced harmony. As a complete system, the 2014 Compstick blends the critical elements of safety, kite control, de-power, and convenience into a rider experience that is tested, trusted, simple, smooth, and intuitive.

# 2014 COMPSTICK

17" x 20m / 20" x 23m / 23" x 27m Crossover

## FEATURES

<b>THROTTLE CONTROL</b>	47cm bar throw - the largest bar throw / throttle control in the industry, this provides you the widest range of power control at your finger tips.
<b>800LBS CENTER FLYING LINES</b>	60% stronger than 500lb flying lines.
<b>GUARDIAN SWIVEL</b>	Keeps your front lines clean from twisting and the 'auto clutch sensor' ensures trusted safety function in all kite sizes from 4 meters to 17 meters.
<b>ACTIVE STOPPER BALL</b>	On the fly adjustable bar stop to personalize the amount of bar throw for any riding conditions.
<b>DUAL OH SHIT HANDLES</b>	Provides peace of mind with redundant safety .
<b>LINE LOCK</b>	Velcro tabs keep your bar organized while not in use.
<b>CLEAR VISION</b>	Less clutter above the bar provide a full range of vision for all riding conditions.
<b>RUGGED COMPETITION GRADE GRIP</b>	Non-slip grip coupled with an ergonomic design reduces hand fatigue in all conditions.
<b>ONE PIECE HARDENED CENTER HOLE</b>	Provides a silk-like-feel and eliminates chicken loop line wear.
<b>AUTO INDEXING CHICKEN LOOP</b>	While riding un-hooked, the Auto Indexing Chicken Loop orientates the Rider Control Center and chicken loop into the correct optimal position.
<b>BAR FLOATS AND PROTECTED END CAPS</b>	Keeps the bar floating and protects rider from injury.
<b>GUARDIAN CHASSIS</b>	The foundation of the chassis is forged from polished marine grade stainless steel to be stronger, lighter and more durable.
<b>GUARDIAN RELEASE HANDLE</b>	Manufactured with self-lubricated nylon, molded in backboard and color coded soft handle. This design enhances the riders intuitive use when deploying the Guardian Safety Release System.
<b>GUARDIAN LEASH LOOP</b>	Stainless steel leash ring attachment point, with rugged color coded Guardian Safety Handle.
<b>GUARDIAN ERGOCAM</b>	Smooth pin/roller release action when the Guardian Safety System is deployed.
<b>CHICKEN LOOP</b>	Available in standard, medium and small sizes.
<b>MOLDED DONKEY DIK</b>	Enhanced and easily removable for un-hooked riding.
<b>INTEGRATED 360° PULLEY</b>	Seamlessly reduces the amount of force required to trim/depower the kite with a 3-to-1 mechanical advantage.
<b>BELOW THE BAR ACCESS TO DEPOWER LINE</b>	Maintains the 47cm stoke distance (Throttle Control) when trimming the de-power line.
<b>CLAMCLEAT®</b>	The Industry leader in line rigging cleats, insures quality performance with the added benefit of reduced line fatigue.
<b>CRUISE CONTROL HANDLE</b>	Manufactured with a soft urethane material. Let's riders easily hold the trim line used for setting the baseline power in their kite.
<b>NEW GRAPHICS PACKAGE</b>	The Pro black/red layout follows industry standards with red leader lines, red pigtails and red safety loops all on the left. Helping make the rigging fool-proof. The Slingshot logos placed on the bar handle are laid out so when you can read 'em, you know you are holding the bar correctly - safety first.
<b>LIFETIME RIDER SUPPORT HOTLINE</b>	Connect directly with our knowledgeable in house professional customer service department.

## RIDER PROFILE

### RIDER PROFILE

Ideal for all levels / all abilities riders focused on the highest safety standards, maximum convenience, performance and durability. Looking for uncluttered system , easy set-up and user friendly rigging.

### BAR SIZES

17" x 20m  
20" x 23m  
23" x 27m
